

Solutions for Denim production

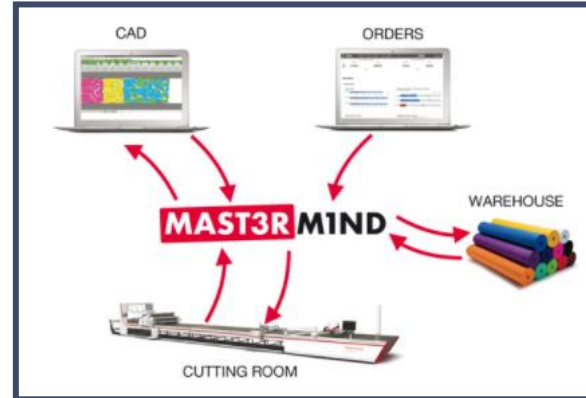

Are you ready to take your Denim production to the next level?

PRODUCT DEVELOPMENT

DENIM SALES

DENIM PRODUCTION MANAGEMENT

CUTTING ROOM

MorganTecnica presents the solutions to digitize and make your production even more efficient: from models' creation to the cutting room

PRODUCT DEVELOPMENT
AND SALES

3DRESS is MorganTecnica's virtual garment fitting

You can use 3Dress to reduce costs by saving fabric and other raw materials for prototyping, minimize logistic costs of shipping physical samples, lead time cut down and increase the number of creative proposals.

Reduce time to market and increase your e-commerce sales with **3D**
3DRESS

By using 3Dress you can curb costs for photo shooting and make your process much more sustainable.

Develop the product and sell it online before you produce it!

CUTTING ROOM MANAGEMENT
AND PRODUCTION

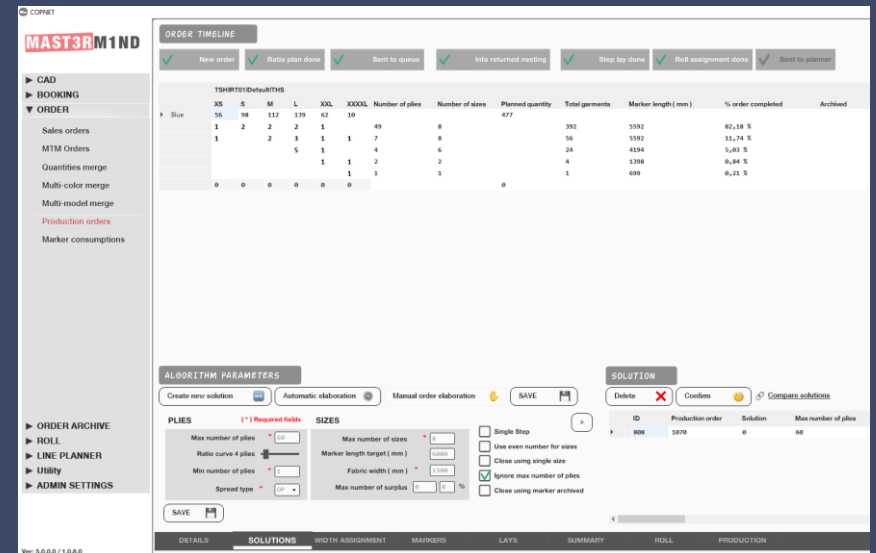

Optimize the production of the cutting room with focus on fabric consumption reduction and production speed increase

Mastermind is the specific software for the management of all the production aspects related to the cutting room. By integrating information from CAD, orders, warehouse and the cutting room, Mastermind transforms data into clear and immediate information to facilitate the decision-making process.

Mastermind has 9 different modules that integrated guarantee a smart production planning.

This today's must-have solution increases the productive efficiency on the cutting line by saving fabric, reducing errors and delays, saving energy, optimizing orders and giving you more control over costs. As a result, production delivery time is reduced.

ANALYTICS

Complete solution for an efficient and elegant cutting room. Integrated with Mastermind your productivity will be as high as possible.

Better decisions and greater control over the cutting room.

Due to digital technology, the information provided by the machines in the cutting room can be followed in real time on a cell phone or tablet, increasing control over processes and speeding up the decision making.

Next2 Delta 70 Denim

The ultimate solution for Denim cutting

- Zero buffer cutting
- Continuous cutting
- Very low decibel emission
- New sensors for auto-diagnosis
- New data center system for real-time monitoring of data and consumption

NEW PC STATION, MORE COMFORTABLE AND PRACTICAL
